Hygiene Drive!

When people in need visit a Cityteam shelter, they are handed a hygiene kit, which provides them with basic personal cleanliness and comfort. We can help make kits available by collecting these items:

- chapstick
- toothpaste
- toothbrush
- shaving cream
- razor
- shampoo
- deodorant
- washcloth
- tissues (travel-size)

Do you have any of these new, unopened items in a drawer at home? Can you purchase an extra item next time you’re at the store? Do your parents travel? Can they bring home unused hotel toiletries? If you answered “yes” to any of the above questions… you can help!

Note: you do NOT need to assemble a kit. The 6th and 7th graders will be assembling kits on April 26th. The items must be small enough to fit inside a gallon-size Ziploc bag.

Please drop your items in the barrel at YBR before Friday, April 26th!

Thank you for making a difference!
